

CTC CONSULTING GROUP - ROSS KELLY

Construction | Distribution | Manufacturing | Resources

Ross has a career spanning 35 years in management rolls covering all aspects of operational and corporate management. He has a proven track record of significant strategic, structural and operational value delivery within small, medium, large and complex domestic and multinational corporations.

He possesses a broad spectrum of domestic and international experience as a Senior Executive managing multi-dimensional teams ranging in size from less than 10, to numbering hundreds and spanning the following areas :-

- Health, Safety, Quality and Sustainability, IT, Supply Chain, Transactional Shared Services, Marketing, Sales and Operations, and Mergers/Demergers.

Ross has operated at the operational, functional and Executive levels with the most recent being as Executive General Manager, Risk Management for Barmenco, where he completed the reengineering of the Safety, Quality and Risk Management systems of this major mining contracting company. Other companies he has worked for where he has gained this experience include CSR, Stockland and Dyno Nobel. Ross' background and experience enables CTCCG to provide a range of additional services in WHS, IT and Supply Chain.
